

1. **Purpose.** Task V Corps Major Subordinate Command (MSC) and Separate Brigade (Sep Bde) commanders with all known exercise requirements in FY 03-04. Provide a warning order for all projected exercise support requirements for FY 03-04.
2. **Objective.** The primary objective of this annex is to maximize the predictability and provides the most detailed and accurate exercise planning information available up to 12-24 months in advance of execution so that subordinate commanders and staffs have sufficient time to plan, BUDGET for, resource and efficiently manage their training exercise programs. The secondary objective is to provide enough information now so that subordinate units identify significant exercise participation or support conflicts / issues and raise them to the V Corps Command Group in a timely manner.
3. **Funding.** Tasked V Corps Major Subordinate Command (MSC) and Separate Brigade (Sep Bde) Commanders are responsible for planning, estimating costs, budgeting for and funding their unit's participation in each exercise marked "UNIT FUNDED". Unit funded events are events for which tasked units must pay ALL costs associated with their participation in the exercises (i.e., transportation from home stations to the exercise area, commercial billeting if required, commercial meals if required, communications lines and devices, copiers, shredders, power generation, heating for tents, all contracted services, soldier per diem - if authorized, SSSC, maps, planning conference costs, etc). V Corps G3 Exercise Division can assist unit budget planners in clarifying known requirements or providing updated exercise planning information with which units can base cost estimates.
4. **General.** V Corps generally schedules, resources, and plans two to four major internally- controlled Command Post Exercise (CPX)/Computer Assisted Exercise (CAX) each fiscal year (e.g., Victory Focus, Victory Strike). These CPXs serve as internal V Corps collective training events, controlled by CG, V Corps, in preparation for either a Corps/division embedded or a single division Battle Command Training Program (BCTP) Warfighter Exercise (WFX). Most other exercises listed in Annex A are in support of other army, service component, NATO, bilateral country, Partnership for Peace (PfP) or engagement exercise training objectives. USAREUR identifies and validates exercise support personnel and equipment requirements for each of these other exercises, then directs V Corps to support these requirements.

V Corps G3 Exercise Division receives and validates these requirements, then, analyzes them for V Corps staff or subordinate unit tasking. G3 Exercise Division coordinates with the appropriate V Corps staff Subject Matter Experts, Battlefield Operating System (BOS) representatives, AG (for current and projected personnel strength distribution), G3 Training (for projected CMTC and GTA density support impacts), G3 Operations Division (for tasking cycle validation and equitable tasking distribution) and the affected subordinate units or staff to develop a draft V Corps exercise TASKORD. After staffing and coordination with affected units/staffs, V Corps G3 Exercise Division obtains the G3 or Command Group approval IAW the V Corps Tasking regulation guidelines and publishes V Corps TASKORDs. V Corps G3 publishes FRAGOs as new USAREUR-validated and V Corps Commander-validated support requirements develop or change.
5. **Exercise Planning Conference Participation.** Units tasked to participate in most exercises below are also required to participate in one or more of the pre-exercise planning events below with unit representative(s) as appropriate or specified. A typical exercise planning cycle will include some or all of the following events: a U.S.-only Pre-

Concept Development Conference (CDC) at Exercise minus 16-19 months, a CDC at Exercise minus 15-18 months, an Initial Planning Conference (IPC) at Exercise minus 10-12 months, a Main Planning Conference (MPC) at Exercise minus 4-8 months, a Leader's Reconnaissance and or Site Survey at Exercise minus 3-6 months, a Final Planning Conference (FPC) at Exercise minus 2-3 months, a Final Coordination Meeting at Exercise minus 15-45 days, and simulation controller (puckster) and/or Observer Controller (O/C) training and mini-exercise at Exercise minus 2-15 days. Units will generally be required to participate in the CDC, IPC, MPC and FPC with from one to four personnel/BOS representatives: G3/S3 Operations or Training - (provides training objectives, validates manning requirements, participates in training concept development and validation, identifies and raises exercise support concerns or issues, represents unit commander); G4/S4 - develops, validates Logistics support and/or Life Support concept and requirements; G6/SIGO - develops and validates communications architecture or simulations support requirements; and an exercise-specific BOS representative (ADA, Eng, G2/S2, G5/S5, CHEMA, etc.) as appropriate.

**6. Higher/External Headquarters Exercise Support.** The V Corps FY 03-04 Exercise Programs will support USAREUR-validated Contingency Operations, Army, joint and combined war fighting and where possible, engagement of other allied armies in this theater. Exercises in this program include V Corps exercises and Echelons Above Corps exercises sponsored by United States European Command (USEUCOM), Central Command/Army Central Command (CENTCOM/ARCENT), United States Army, Europe, and 7th Army (USAREUR), Allied Command Europe (ACE) Rapid Reaction Corps (ARRC), and NATO Joint Headquarters Centre (JHQ-C), as well as USEUCOM-sponsored, USAREUR-validated bilateral exercises. All exercises support taskings in this annex appear in order of beginning execution date sequence.

**7. Summary.** Planning for and participation in all scheduled exercises has been approved by CG,V Corps.
